
PAIS 2004

3rd Prestigious Applications Intelligent Systems Conference
Valencia (Spain), August 25-27th, 2004

Call for Papers

ECAI 2004 is pleased to announce its "Prestigious Applications of Intelligent Systems" (PAIS-2004) sub-conference. The PAIS-2004 Programme Committee invites authors to submit application papers.

This event, associated with ECAI 2004 is created to specifically highlight significant successful applications of intelligent system technology. The purpose of the event is to provide a forum for industry practitioners to learn about the power and applicability of selected intelligent system techniques and share experience on the applicability, development and deployment of intelligent systems in industry. This will be the largest showcase in Europe of real applications using intelligent system technology and the ideal place to meet with those working to make successful intelligent system based applications.

The Prestigious Applications of Intelligent Systems event will present papers describing successful applications of intelligent systems. Although associated with ECAI, it has a separate review process conducted by experts in the application of intelligent system technologies. Papers are selected to highlight critical areas of success (and failure) and to present the benefits and lessons of value to other developers. Submitted papers should make these points clear. Accepted papers will be published in a special section of the ECAI 2004 proceedings.

Submission instructions:

Paper submissions to PAIS 2004 will follow exactly the same format and procedure as ECAI 2004. Papers must respect the formatting and length restrictions for ECAI papers but additionally should be clearly marked as a submission to PAIS on the first page. Submissions should be made electronically or in hardcopy to the same addresses and by the same deadlines as papers submitted to the regular conference. Do not submit papers directly to the PAIS programme committee.

Important dates

13 Feb 2004 Deadline for PAIS papers summaries
18 Feb 2004 Deadline for papers
2 May 2004 Notification of acceptance
31 May 2004 Camera-ready copies of papers
25-27 Aug 2004 PAIS-2004, Valencia

Programme Committee

Chairperson:

Pádraig Cunningham,
Trinity College Dublin, IRL,

Members:

Josep-Lluís Arcos, Institut d'Investigació en Intel·ligència Artificial, ES
Riccardo Bellazzi, Università di Pavia, IT,
Max Bramer, University of Portsmouth, UK,
Bertrand Braunschweig, Institut Français du Pétrole, FR
Oskar Dressler, OCC'M, DE
Richard Ellis, Stratum Management, UK
Boi Faltings, Ecole Polytechnique Fédérale de Lausanne, CH
Gerhard Fleischanderl, Siemens Austria, AT
Mehmet Göker, Kaidara Software, USA
Beat Liver, Credit Suisse Private Banking, CH
Ann Macintosh, Napier University, UK
Silvia Miksch, Technische Universität Wien,
Rob Milne, Intelligent Applications, UK,
Chris Price, University of Wales, UK,
Giovanni Semeraro, University of Bari, IT
Ana García Serrano, Universidad Politécnica de Madrid, ES
Barry Smyth, Changing Worlds, University College Dublin, IE
Oliviero Stock, ITC-irst, IT,
Kilian Stoffel, University of Neuchâtel, CH
Patrick Taillibert, THALES Airborne Systems, FR
Mugur Tatar, DaimlerChrysler AG, DE
Franz Wotawa, Technische Universität Graz, AT

PAIS Chair

Pádraig Cunningham,
Department of Computer Science
Trinity College Dublin
College Green, Dublin 2, Ireland.
